

# SimCorp Dimension

SimCorp Dimension provides a clear overview of the entire investment management function while enabling you to zero in on any aspect of your operations with pinpoint accuracy.

## HIGH DEFINITION

The uniquely transparent design of SimCorp Dimension affords management an unprecedented degree of control - and resulting ability to generate detailed reports automatically - makes SimCorp Dimension strikingly easy to deliver information to those who need it and to show that assets are being managed professionally and in compliance with the law.

SimCorp Dimension provides a clear, real-time overview of your total financial situation as well as in-depth information on every aspect of your business.

SimCorp Dimension delivers information that is easy to access and always up-to-date. Routine as well as specially requested reports can be produced quickly and at little cost. Performance can be documented in detail, down to the daily returns on individual investments, if necessary.

## MANAGEMENT INFORMATION

Neville & Rowe deliver powerful Management Information from SimCorp Dimension providing browser based solutions, desktop dashboards and SimCorp Dimension inbuilt reports. We leverage the recommended tools and industry standards for scalable and long-term solutions.

## STRAIGHT-THROUGH PROCESSING (STP)

SimCorp Dimension puts you in stronger competitive position by enabling you to run a leaner organisation.

## SEAMLESS PROCESSING

System capabilities are comprehensive in SimCorp Dimension. Virtually all classes of traditional and alternative investments are catered for, from equities to fixed-income instruments, derivatives and FX. In SimCorp Dimension all front, middle and back-office operations can be equipped with powerful functionality. And all functions are totally integrated for seamless straight-through processing (STP).

## INTERFACES

Neville & Rowe deliver high-end, scalable solutions for integrating and interfacing with other systems into SimCorp Dimension. With our unique knowledge of interfaces with price and data providers into SimCorp Dimension, as well as delivering data out of SimCorp Dimension, we deliver the right solution for your business and business infrastructure. From using out-of-the-box SimCorp Dimension modules such as the Communication Server to providing high-end solutions built in Communication Grid, we ensure the best solution for your business.
